Input table on continuous line

Improvement of the existing system

● **Mechanical engineering** ● **Realizations** ○ **Cabling** ○ **Machines**

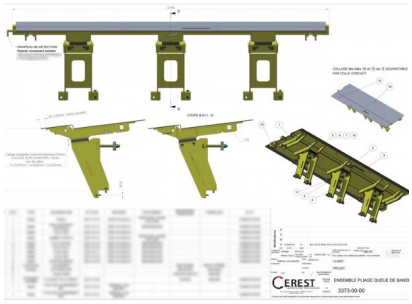
This introduction table is inserted instead of the previous table.

The purpose of this change is to **improve the robustness of the system** by reconsidering the position of the fixed supports.

In this project, we **analyzed the causes of failures of the existing system to rethink the construction**, the solution was validated by **finite elements analysis**.

SPECIFICATIONS :

- **Permissible bending force 2x 78 kN**
- **Table width 2100mm**



Reference : 3373

Project added the 09/08/19
