

Input table on continuous line

Improvement of the existing system

● Mechanical engineering

● Realizations

○ Cabling

○ Machines

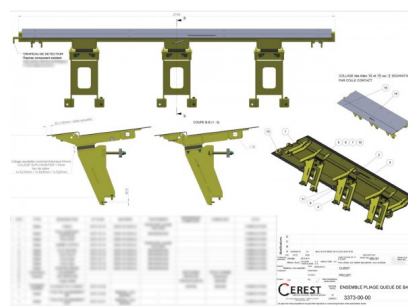

This introduction table is inserted instead of the previous table.

The purpose of this change is to **improve the robustness of the system** by reconsidering the position of the fixed supports.

In this project, we **analyzed the causes of failures of the existing system to rethink the construction**, the solution was validated by **finite elements analysis**.

SPECIFICATIONS :

- Permissible bending force 2x 78 kN
- Table width 2100mm

Reference : 3373

Project added the 09/08/19
