Press-fit

Connector on sheath

● **Mechanical engineering** ● **Realizations** ○ **Cabling** ○ **Machines**

The press-fit press is used to fix an elbow connector to a steel sheath.

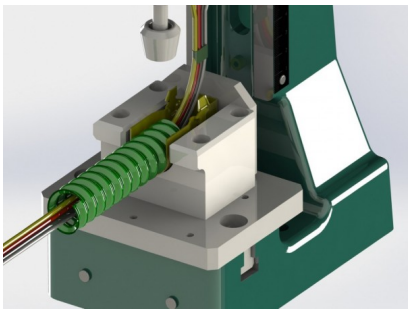

This **manual press** is equipped with a positioning device for the correct positioning of the parts to be pressed in.

The laying can be rotated by ±90° for better ergonomics according to the operator's preferences.

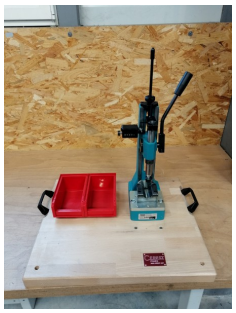

SPECIFICATIONS :

- Pressure force 1.5kN

- Optional parts counter available

Reference : 3396

Project added the 04/09/20
