

MACHINING TABLE

For assembly fittings between particle boards

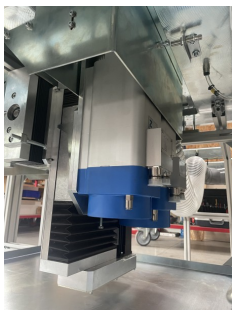

● **Mechanical engineering** ● **Realizations** ○ **Cabling** ○ **Machines**

table dedicated to the machining of cavities receiving the assembly fittings between worktops.
This large series operation is integrated into a robotic cell ensuring the loading and unloading of the panels.
The marble is equipped with 2 3kW spindles digitized along 2 Y/Z axes.
Measuring devices allow the work reference to be recalibrated on the marble.
A localized suction allows the evacuation of shavings.

FEATURES: :

- **2 Broches 3kW cône HSK-C50**
- **Course Y 180mm / Z 100mm**
- **panneaux min : 150X150mm**

Reference : 3651

Project added the 17/12/24
