

Pallet stopper

On conveyor

● **Mechanical engineering** ● **Realizations** ● **Cabling** ○ **Machines**

Stop for a height of approximately **10 pallets**.

Allows pallets to be centred on a conveyor by **adjusting the stop according to width**.

2 positions are possible by tilting the mobile part using a pivot system.

2 pins are used to lock the desired position.

Added support for resting the forks and wheel stop **to prevent a truck/conveyor collision**.

Detection of the selected stroke to avoid errors.

FEATURES :

- **Adjustable position 0 or +50 mm**
- **1100 and 1200 mm wide pallets**
- **Aluminium moving part**

Reference : 3803

Project added the 15/10/24
