Debagging station

Water meters

Mechanical engineering **Realizations** **Cabling** **Machines**

Stand-alone, easy-to-move, space-saving station for **removing** a plastic cover crimped onto a water meter body.

A range of about **twenty models** can be debagged by selecting the desired product (recipes) on the screen.

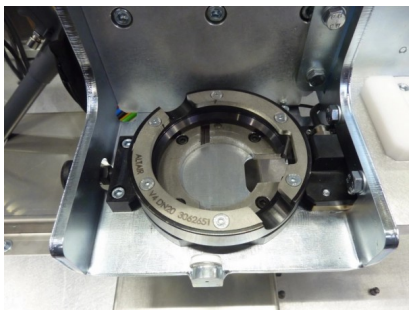

Very short series changeover time (**without tools**).

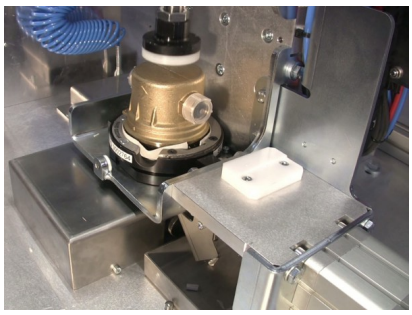

Cutting of the plastic cover with a set of knives (**avoids chips**) while keeping the lower body and the meter **intact**.

SPECIFICATIONS :

- **BRUSHLESS motorisation for the knife penetration stroke during cutting**
- **5 types of positioning for the whole range**
- **Secure dip-stamping**
- **Electrical energy : 400V**
- **Pneumatic energy : 5 bar**

Reference : 3253

Project added the 16/09/20
