Safety spacers

● **Mechanical engineering** ○ **Realizations** ○ **Cabling** ○ **Machines**

2 spacers to **secure** the upper mobile apron of a press in case of maintenance work.

Manually handled spacers, special care in design has allowed the weight to be **reduced** to a minimum.

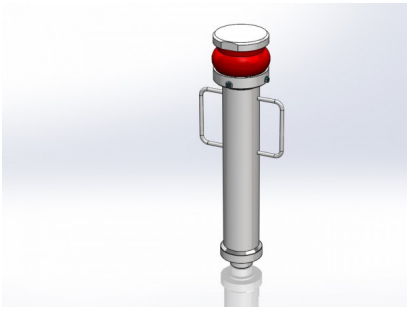

The acceleration of the load and the impact force during the fall were taken into account.

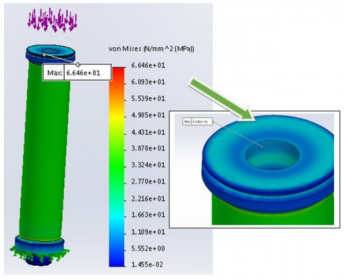

Integration of a **shock absorbing** system.

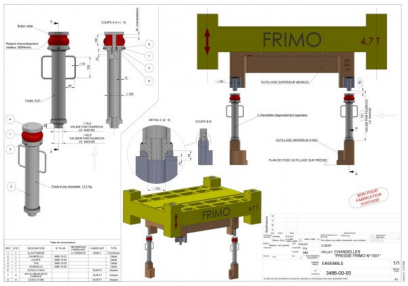

Production of a **calculation note**.

SPECIFICATIONS :

- **Total load : 8.5 T**
- **Material : ALU / STEEL**
- **Weight : 12 Kg**

Reference : 3486
Project added the 16/09/20
