

Welding jigs

for CEREST turners

● **Mechanical engineering** ● **Realizations** ○ **Cabling** ○ **Machines**

Consisting of **3 new tools** in addition to a previous one delivered **to increase our customer's product range**.

These tools are intended for one of our previous realizations.

The **'series in progress' storage toolbox** has been redesigned in order to integrate them.

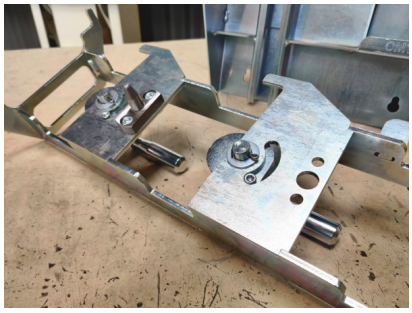

Particular care was taken during the design to avoid the risk of positioning errors.

Each tool location is identified to facilitate the change of series.

SPECIFICATIONS :

- **3 additional product configurations, bringing the customer's reference to 24**
- **Tools in electro-galvanized steel**
- **8 storage configurations for easy access during production**

Reference : 3526

Project added the 14/10/20
